**PART 2  
PRICING TERMS AND CONDITIONS FOR PLACEMENT OF  
ADVERTISING SPOTS ON TV RATING CHANNELS**

2.1 This Part 2 of the Pricing Terms and Conditions sets forth the general terms and conditions for the determination and potential further modification of the price for broadcasting Advertising Spots on TV Rating Channels.

**A. General Provisions for Determination of the Price of Advertising Spots Purchased by means of Binding Orders**

2.2 The Price of Advertising Spots purchased by the Advertiser by means of one or more Binding Orders shall be calculated by multiplying the number of the Gross Rating Points ordered based on the relevant Specific Order by the Reference CPP in accordance with Article 2.12 hereof and further modified by these Pricing Terms and Conditions, so all the relevant parameters of the Advertising Spot and its placement on TV Rating Channels are taken into account, unless expressly stipulated otherwise by these Pricing Terms and Conditions.

2.3 Notwithstanding Article 2.2 hereof, the Price of Advertising Spots shall be in the following cases determined by multiplying the number of the actually delivered Gross Rating Points by the Reference CPP in accordance with Article 2.12 hereof and further modified by these Pricing Terms and Conditions, so all the relevant parameters of the Advertising Spot and its placement on TV Rating Channels are taken into account:

- (a) In the event that the number of Gross Rating Points ordered by the Advertiser in the Specific Order is not delivered; or
- (b) In the event that the Advertiser decided on the placement of Advertising Spots in respect of which the number of Gross Rating Points actually delivered is higher than the number of Gross Rating Points ordered by the Advertiser in the Specific Order; or
- (c) In the event that the Advertiser orders, by means of a Specific Order, an Advertising Campaign with duration of maximum four (4) days (inclusive), then notwithstanding Article 2.9 hereof the Advertiser shall decide about the placement of all Advertising spots pursuant to such Specific Order while, notwithstanding Article 2.5 hereof the Advertiser shall not be entitled to indicate the minimum number of requested Gross Rating Points. However, in the event that the Advertising Campaign commences at the end of one calendar month and

continues immediately from the first day of the following calendar month and its total duration is at least seven (7) days (inclusive) than the Price of the Advertising Spots shall be determined in accordance with Article 2.2 hereof.

2.4 The Reference CPP shall be determined and modified according to the Pricing Terms and Conditions valid as of the day of conclusion of the relevant Binding Order (Article 2.15 of the General Terms and Conditions shall not be affected). In the event that the Advertiser wishes to place the Promotion in a volume exceeding the present Current Order Volume, the Advertiser shall be obliged to do so by virtue of a new Binding Order, whereas the Price of Advertising Spots applicable on the Partial Order Volume purchased by means of such new Binding Order shall be determined on the basis of the Pricing Terms and Conditions valid as of the day of conclusion of the new Binding Order based on the Current Order Volume.

2.5 In the Specific Order, the Advertiser shall be entitled to indicate a minimum number of Gross Rating Points to be placed in (i) Super Prime Time, (ii) Prime Time and (iii) Off Prime Time. Time delays in the broadcasting of the Advertising Break caused by a continuous-time delay in the broadcasting of the Provider compared to the planned program schedule shall not be taken into account for the purposes of determination of the Price of Advertising Spots, and only the indication of the Advertising Spot as stipulated in the Specific Order shall be decisive as to whether the Advertising Spot shall be deemed broadcasted in Super Prime Time, Prime Time or Off Prime Time. The Provider shall be entitled with regard to the capacity and program reasons to move the Advertising Spot into a Time Slot other than the one requested by the Advertiser, whereas in this case the coefficient corresponding to the Time Slot in which the relevant Advertising Spot was actually broadcasted shall be used to calculate the price of the relevant Advertising Spot. Movement of Advertising Spot to another Time Slot than requested by the Advertiser may lead to the change of the total amount of Gross Rating Points ordered by the relevant Specific Order but without increasing the portion of the Order Volume placed by such Specific Order.

2.6 The number of Gross Rating Points actually delivered by virtue of the Advertising Spot shall be determined based on the average ratings of the Advertising Break containing the Advertising Spot for the Target Group: Adults 15-54 according to the Official Data.

2.7 In the event that the Official Data for the term of the Advertising Campaign, or any part thereof, is not available for any reason, the Price of Advertising Spots shall be determined based on the estimates of the number of Gross Rating Points delivered by the particular Advertising Breaks, which shall be prepared in writing by the Provider and shall be available in the Provider’s offices.

2.8 The Provider shall deliver the number of Gross Rating Points requested by the Advertiser according to the Distribution Ratio. The Provider shall be entitled to change the Distribution Ratio depending on a change in the audience share ratio for individual TV Rating Channels. The Provider shall be obliged to inform the Advertiser in writing of any potential change in the Distribution Ratio.

2.9 The Advertiser shall be entitled, by means of a Specific Order, to decide on the placement of the Advertising Spots (hereinafter referred to as the “**Planning**”) to an extent of up to 80% Gross Rating Points, which are to be delivered by means of the Advertising Spots placed by this Specific Order, whereas the decision on the placement of the rest of the Advertising Spots shall belong to the Provider. The provisions of this Article 2.9 shall not affect the Provider’s entitlement under Article 2.5, third sentence, hereof.

2.10 In the event that the Advertiser is granted any discount by the Provider, but the Advertiser subsequently fails to fulfill the conditions stipulated for the granting thereof, an amount corresponding to the discount to which the Advertiser had not become entitled shall be charged by the Provider to the Advertiser for payment in the month immediately following the end of the period wherein the Provider had assessed the Advertiser’s fulfillment of the conditions for being granted the discount.

2.11 The applicable VAT determined in accordance with binding legal regulations shall be charged together with the Price of Advertising Spots.

**B. Discounts and Coefficients Applicable in relation to the Price of Advertising Spots Purchased by means of Binding Orders**

**Volume Discount**

2.12 Depending on the amount of the Current Order Volume, the Reference CPP applicable with respect to the Partial Order Volume purchased by means of the relevant Binding Order shall be

discounted so that the Reference CPP shall be equal to the amount of the Current Order Volume divided by the total number of corresponding Gross Rating Points (hereinafter referred to as the “**Volume Discount**”). The total number of corresponding Gross Rating Points shall be determined as a sum of Gross Rating Points calculated separately for each Current Order Volume Interval pursuant to the following table, always as a share of the amount of the Current Order Volume reached within the corresponding interval in the left column of the table and the auxiliary variable for identification of the number of Gross Rating Points for such Current Order Volume Interval stated in the right column of the table. The final discounted Reference CPP for the given amount of the Current Order Volume, which will be calculated as described above, is stated in the middle column of the following table with respect to each Current Order Volume Interval.

| <b>Current Order Volume Interval (in CZK)</b> | <b>Final Reference CPP at the beginning and at the end of the Current Order Volume Interval (in CZK)</b> | <b>Auxiliary Variable for Identification of the Number of Gross Rating Points within the Given Current Order Volume Interval (in CZK)</b> |

2.13 In the event that the amount of the Current Order Volume reaches at least CZK 110 000 000, the Advertiser shall be entitled to the Volume Discount in an amount determined by the Provider depending on the specific amount of the Current Order Volume reached and, as the case may be, other objective criteria determined by the Provider and announced to the Advertiser before concluding the relevant Binding Order.

**Monthly, Daily and Other Coefficients**

2.14 For the purposes of determining the Price of Advertising Spots, the Reference CPP shall further be multiplied by the relevant coefficient depending on the calendar month (or part thereof) which is set forth in the relevant Specific Order in relation to the Advertising Spot being placed:

| <b>Calendar Month</b>                             | <b>Coefficient</b> |

In the event that the Advertiser places by means of one or more Specific Orders at least 15% of the Order Volume in April of the Relevant Period, the applicable coefficient for April according to the table above shall decrease to 1.20.

2.15 In the event that the Advertiser places by means of one or more Specific Orders a certain portion of the Order Volume, the minimum or maximum amount of which shall be determined and communicated to the Advertiser by the Provider, in any calendar month(s) or its part set forth in the table in Article 2.14 hereof, whereas the Advertiser shall notify the Provider of the amount of such portion of the Order Volume to be placed by the Advertiser prior to concluding the relevant Binding Order, then the Reference CPP in relation to such portion of the Order Volume shall be multiplied, depending on the amount thereof, by a coefficient other than the coefficient set forth in the table in Article 2.14 hereof, the relevant amount of which shall be communicated to the Advertiser by the Provider when concluding the Binding Order.

2.16 For the purposes of determining the Price of Advertising Spots in Prime Time, the Reference CPP shall be multiplied by the coefficient of 1.05.

2.17 For the purposes of determining the Price of Advertising Spots in Off Prime Time, the Reference CPP shall be multiplied by the coefficient of 0.80.

2.18 For the purposes of determining the Price of Advertising Spots in Super Prime Time, the Reference CPP shall be multiplied by the coefficient of 1.20.

2.19 In the event that the Advertiser wishes to be delivered the relevant number of Gross Rating Points in a Different Distribution Ratio, wherein the share of Gross Rating Points in relation to TV NOVA would be greater than in the Distribution Ratio, the Reference CPP shall be multiplied, for the purposes of determining the Price of Advertising Spots, by the coefficient of 1.15. In the event of meeting certain objective criteria, set by the Provider and communicated in advance to the Advertiser, the coefficient set forth in the previous sentence can be determined by the Provider in a different amount, whereas the Advertiser will be notified of this different coefficient prior to concluding the relevant Binding Order.

2.20 In the event that the Advertiser places by means of one or more Specific Orders a significantly high portion of the Order Volume, which minimum portion shall be determined and communicated to the Advertiser by the Provider, exclusively on Other Media Channels and the Advertiser notifies the Provider of the amount of this portion of the Order Volume to be placed exclusively on Other Media Channels prior to concluding the relevant Binding Order, then the Reference CPP in relation to such portion of the Order Volume shall be multiplied, depending on the amount thereof, by a coefficient which shall be communicated to the Advertiser by the Provider when concluding the Binding Order.

2.21 In the event that the Advertising Spot is accompanied by a separate audiovisual, or only visual message designed to promote the same Client (hereinafter referred to as the “**Active Injection**”), then the Reference CPP for the purposes of determining the Price of Advertising Spots shall be multiplied by the coefficient 1.15.

2.22 In the event that the Advertiser places, by means of one or more Specific Orders, a significantly high portion of the Order Volume, which minimum portion shall be determined and communicated to the Advertiser by the Provider, by means of Advertising Spots with Active Injection, then the Reference CPP applicable to such portion of the Order Volume shall be multiplied by a coefficient other than the coefficient set forth in Article 2.21 hereof, the relevant amount of which shall be communicated to the Advertiser by the Provider when concluding the Binding Order.

**Discount for First Advertising Campaign**

2.23 In the event that the Advertiser purchases, by means of a Binding Order, and places, by means of one or more Specific Orders, a Promotion promoting the Advertiser or one of its Clients who did not place the Promotion in the form of Advertising spots on the TV Rating Channels in the previous 24 months before the conclusion of the relevant Binding Order, then the Reference CPP applicable to the Advertising Spots purchased by this Binding Order and placed by the Advertiser, by means of one or more Specific Orders, on TV Rating Channels shall be multiplied by the coefficient of 0.90.

**Discount for Early Execution of the Binding Order**

2.24 In the event that the Advertiser (i) enters into a Binding Order with the Provider in line with Article 2.2 of the General Terms and

Conditions no later than on December 1, 2017, and, at the same time, (ii) duly places by means of one or more Specific Orders the Partial Order Volume purchased by this Binding Order on the relevant Media Channels, then, for the purposes of determining the Price of Advertising Spots purchased by means of such Binding Order, the Reference CPP shall be multiplied by the coefficient of 0.90.

2.25 In the event that the Advertiser (i) enters into a Binding Order with the Provider in line with Article 2.2 of the General Terms and Conditions between December 1, 2017 and January 15, 2018 inclusive, and, at the same time, (ii) duly places by means of one or more Specific Orders the Partial Order Volume purchased by this Binding Order on the relevant Media Channels, then, for the purposes of determining the Price of Advertising Spots purchased by means of such Binding Order, the Reference CPP shall be multiplied by the coefficient of 0.95.

**Additional discounts**

2.26 Additional discounts can be agreed in the Binding Order to reflect possible commitments of the Advertiser corresponding to (i) commitment to place by means of one or more Specific Orders a certain portion of the total Order Volume on Other Media Channels in a specified manner, (ii) commitment not to make use, in a stipulated extent, its right to decide on the placement of Advertising Spots pursuant to Article 2.9 hereof, or (iii) commitment to pay under specified conditions a portion of the Partial Order Volume prior to the first broadcasting of the Promotion purchased by means of the relevant Binding Order.

**C. Length of Advertising Spots and Combined Advertising Spots Purchased by means of Binding Orders**

2.27 In respect of an Advertising Spot having a length other than thirty (30) seconds, the Price of Advertising Spots purchased by means of the Binding Order shall be multiplied by the applicable coefficient, depending on the length of the Advertising Spot, as specified in the table below:

| Length of Advertising Spot (in seconds) | Coefficient |
|---|-------------|
| 10                                      | 0.50        |
| 15                                      | 0.75        |
| 20                                      | 0.90        |
| 25                                      | 0.95        |
| 30                                      | 1.00        |
| 35                                      | 1.20        |
| 40                                      | 1.35        |
| 45                                      | 1.50        |
| 50                                      | 1.65        |
| 55                                      | 1.85        |
| 60                                      | 2.00        |

2.28 In the event that the Advertiser places a significantly high portion of the Order Volume, the minimum amount of which shall be determined and communicated to the Advertiser by the Provider prior to concluding the relevant Binding Order, by means of the Advertising Spots having a certain unified length, then the Reference CPP in relation to these Advertising Spots shall be multiplied by a coefficient other than the coefficient set forth in the table in Article 2.27 hereof, the relevant amount of which shall be communicated to the Advertiser by the Provider when concluding the Binding Order. In the event that the length of an Advertising Spot differs from the length set forth in the table in Article 2.27 hereof and it is not proceeded pursuant to the previous sentence, the coefficient applicable to the nearest longer length of the Advertising Spot shall be applied. In respect of Advertising Spots having a length exceeding sixty (60) or below ten (10) seconds, the Price of Advertising Spots shall be announced by the Provider to the Advertiser upon the Advertiser's request.

2.29 In the event that the Advertising Spot also contains the promotion of a trademark (brand) of an Other Entity, the Provider shall charge the Advertiser a surcharge in the amount of 15% of the price of such Advertising Spot for each such trademark (brand). In the event of meeting certain objective criteria determined by the Provider and communicated in advance to the Advertiser, the surcharge set forth in the previous sentence can be determined by the Provider in a different amount, whereas the Advertiser shall be notified of this different surcharge prior to concluding the relevant Binding Order. A situation where a logo, product or service of an Other Entity is included in an Advertising Spot promoting a consumer's contest shall also be

deemed a promotion of a trademark (brand) of the Other Entity. The length that an Other Entity's trademark (brand) is depicted or in any other way presented within the relevant Advertising Spot must not exceed 30% of the length of such Advertising Spot.

2.30 In the event that the Advertising Spot contains a depiction of a logo of an Other Entity, and such Other Entity is not by any other means presented in the Advertising Spot, and the length of the depiction of the given logo does not exceed five (5) seconds, then the Provider shall not charge the Advertiser a surcharge pursuant to Article 2.29 hereof. Likewise, the Provider shall not charge the Advertiser a surcharge pursuant to Article 2.29 hereof in the event that a product of the Other Entity appears in the Advertising Spot without a simultaneous depiction of or verbal reference to its trademark (brand) or logo.

2.31 In respect of a Tandem Spot, the price thereof shall be calculated by multiplying the Price of the Advertising Spot by the respective coefficient determined based on the total length of both parts of the Tandem Spot according to the table below:

| Total length of Both Parts of Tandem Spot (in seconds) | Coefficient |
|--|-------------|
| 15   | 0.85        |
| 20   | 0.90        |
| 25   | 1.10        |
| 30   | 1.25        |
| 35   | 1.35        |
| 40   | 1.50        |
| 45   | 1.60        |
| 50   | 1.70        |
| 55   | 1.85        |
| 60   | 2.00        |

2.32 In the event that the total length of both parts of the Tandem Spot differs from the lengths set forth in the table in Article 2.31 hereof, the price of the Tandem Spot shall be calculated by multiplying the Price of the Advertising Spot by the coefficient applicable to the nearest longer length of the Tandem Spot. In the event that the Advertiser places, by means of one or more Specific Orders, a significantly high portion of the Order Volume, which minimum portion shall be determined and communicated to the Advertiser by the Provider when concluding the Binding Order, by means of Tandem Spots with certain unified length of both parts of the Tandem Spot, then the Reference CPP with respect to such Tandem Spots shall be multiplied by a coefficient other than the coefficient set forth in the table in Article 2.31 hereof, the relevant amount of which shall be communicated to the Advertiser by the Provider when concluding the Binding Order.

2.33 The Tandem Spot may contain the promotion of one trademark (brand) only. In other cases, the Provider shall charge the Advertiser as for two separate Advertising Spots.

In the event that the Advertiser without undue delay after receipt of the notice pursuant to the previous sentence, but no later than by the end of the deadline set by the Provider in such notice, requests the Provider in writing to place the Advertising Spot to another Advertising Break which is not a Premium Advertising Break, the Provider shall have the right, if it has such possibility with regard to available capacity, to place the Advertising Spot to another Advertising Break (or other Advertising Breaks), which, according to the Provider's estimate will achieve an adequate number of Gross Rating Points, but is (are) not Premium Advertising Break(s). In the event that the Provider does not have available capacity to place the Advertising Spot pursuant to the previous sentence, then it shall have the right to place the Advertising Spot to the Premium Advertising Break originally chosen by the Advertiser and charge the Advertiser the Price of Advertising Spot increased by a 5% surcharge.

2.35 In the event of placing an Advertising Spot in a Requested Position, the Provider shall charge the Advertiser a surcharge in the amount of 10% of the Price of the Advertising Spot. In the event of meeting

certain objective criteria determined by the Provider and communicated in advance to the Advertiser, the surcharge set forth in the previous sentence can be determined by the Provider in a different amount, whereas the Advertiser shall be notified of this different surcharge prior to concluding the relevant Binding Order.

**D. Recalculation**

- 2.36 In the event that the Advertiser fails, within the Relevant Period ending on the latest date (hereinafter referred to as the “**Last Relevant Period**”), to duly place by means of one or more Specific Orders the Current Order Volume arising from the latest Binding Order concluded between the Provider and the Advertiser for the Promotion of one Advertiser or Client, the Provider shall, at the end of the Last Relevant Period, recalculate the Price of Advertising Spots placed until the end of the Last Relevant Period (hereinafter referred to as “**Recalculation I**”). On the basis of Recalculation I, the Price of Advertising Spots shall be recalculated by the Provider in relation to individual Binding Orders so that the Reference CPP originally set in the relevant Binding Order for the calculation of the Price of Advertising Spots is adjusted so as to correspond to the actually duly placed portion of the Current Order Volume. Based on the Reference CPP adjusted according to the previous sentence, the Price of Advertising Spots shall be newly calculated in relation to the relevant Binding Order. The Provider shall issue an invoice for the difference between the originally invoiced Price of Advertising Spots and the newly calculated Price of Advertising Spots resulting from Recalculation I within fifteen (15) calendar days following the end of the Last Relevant Period.
- 2.37 In the event that the Advertiser notifies the Provider in writing that the purchased Current Order Volume is not to be duly placed by the Advertiser (hereinafter referred to as the “**Notification**”), and this Notification also includes information as to which Binding Orders and to what extent of their individual Partial Order Volumes such failure relates (hereinafter referred to as the “**Labeled Partial Order Volumes**”), then the Provider shall recalculate the Price of Advertising Spots placed prior to delivery of the Notification (hereinafter referred to as “**Recalculation II**”; Recalculation I and Recalculation II hereinafter collectively referred to as the “**Recalculation**”). On the basis of Recalculation II, the Price of Advertising Spots shall be recalculated by the Provider in relation to individual Binding Orders so that the Reference CPP originally set in the relevant Binding Order for the calculation of the Price of Advertising Spots is adjusted so as to correspond to the actually duly placed portion of the Current Order Volume. Based on the Reference CPP adjusted according to the previous sentence, the Price of Advertising Spots shall be newly calculated in relation to the relevant Binding Order. From the moment when Recalculation II is made, the Labeled Partial Order Volumes shall not be counted in the Current Order Volume. The Provider shall issue an invoice for the difference between the originally invoiced Price of Advertising Spots and the newly calculated Price of Advertising Spots resulting from Recalculation II within fifteen (15) calendar days following receipt of the Notification.
- 2.38 For the purposes of the Recalculation, the following shall also be counted in the actually duly placed portion of the Current Order Volume: a Promotion purchased for the purposes of broadcasting a Special Advertising Campaign and duly placed by the Advertiser by means of the relevant Specific Order.
- 2.39 Execution of Recalculation II shall not prevent the execution of Recalculation I. Within the Recalculation, the Reference CPP applied in relation to the individual Binding Orders shall not be lower than the Reference CPP stipulated in the respective Binding Order.
- 2.40 The Advertiser shall be obliged to pay the Provider the difference in the Price of Advertising Spots determined as a result of the Recalculation within fifty (50) days following the date the relevant invoice was issued by the Provider.
